School Annual Education Report (AER) Cover Letter

3/24/2016

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2014-15 educational progress for the Delton Kellogg High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Lucas Trierweiler for assistance.

The AER is available for you to review electronically by visiting the following web site <https://www.mischooldata.org/NewAer/CombinedReport2.aspx>, or you may review a copy in the main office at your child's school.

Delton Kellogg High School has shown growth in the areas of reading, social studies, and science, over the last two years. However, our percentage of students proficient in each area still lags behind the state average. We have begun to increase our rigor, adopt more AP courses, increase academic offerings including CTE, institute an advisory period, as well as look at additional support for our students to allow them to become more successful. We have targeted many of our lower achieving students and have worked through the use of advisory classes to help them close the gap with other students. This initiative is accomplished using a combination of relationship building, academic monitoring, and adjustments within the core curriculum.

State law requires that we also report additional information.

1. Delton Kellogg High School serves students in grades 9-12 and are assigned to programs through data gathered from state and local assessments, teacher recommendations, parent input, post-secondary goals, and current academic standing.
2. The DKHS School Improvement Plan was updated in 2014-2015 for improvement in the core academic areas and in implementing technology for each student across all grade levels. It was filed with the Michigan Department of Education.
3. Delton Kellogg Schools have two High Schools. DKHS is for grades 9-12 and DK Academy is an alternative High School for students 16-20 years of age.
4. A copy of the core curriculum, a description of its implementation and how it may vary from the state's model is available by contacting the school office.
5. The aggregate achievement for the last two years for MME showed that we moved from 28.7% proficient to 36.4% proficient on average across all assessment areas. Delton High School also moved from a composite score of 18.8 on the ACT with 17.6% of students meeting or exceeding benchmark standards to 19.3 composite score and 18.5% meeting or exceeding benchmark standards over the last two years.

6. Parent Teacher conferences were attended at a rate of 52% in the fall and 42% in the spring for 2014-2015 and 53% in the fall and 27% in the spring for 2015-2016 school year.
7.
 - a. 19 total students enrolled in dual enrollment, 4.8% of student population.
 - b. We offer 12 AP courses on a rotating basis. 5 offered in 2014-2015
 - c. 45 different students were enrolled with a total of 66 seats. Some students took more than one AP course. This is 11.25% of our student population.
 - d. 40 tests taken by students received a passing score leading to credit. 61% of tests taken received a passing score for college credit.

Delton Kellogg High School is continually working on growing our student success through curriculum and instructional improvement, integrating technology, social and emotional growth, college and career readiness. This is all possible due to our great partnership with our community members, parents, and outstanding professional staff. At Delton Kellogg High School we are staying positive and building relationships.

Sincerely,

Lucas Trierweiler
